

## REMARKS

Reconsideration and allowance of the subject application are respectfully solicited.

Claims 11 through 17 are pending, with Claims 11 and 14 being independent. Claims 1 through 10 have been cancelled without prejudice. Claims 11 through 17 have been added. The specification has been amended to attend to formal matters.

Claims 1 through 10 were variously rejected under 35 U.S.C. §§ 102 and 103 over US 6,593,942 B1 (Bushmitch, et al.), taken alone or in a combination with US 6,266,295 B1 (Parker, et al.). All rejections are respectfully traversed.

Claims 11 and 14 variously recite, *inter alia*, that information indicating that the recording of the broadcasting program *is done* is displayed at the time position of the analog clock upon executing the recording of the broadcasting program (with displaying of information at a time position of the analog clock corresponding to a broadcasting time of the program scheduled to be recorded).

However, Applicants respectfully submit that neither Bushmitch, et al. nor Parker, et al., even in the proposed combination, assuming, *arguendo*, that such could be combined, discloses or suggests at least the above-discussed claimed features as recited, *inter alia*, in Claims 11 and 14.

Applicants respectfully submit that Bushmitch, et al. shows, e.g., that item 22A with a revised time is viewed on a successive clock face 18A to designate a future time (e.g., col. 3, lines 33-35), and that Parker, et al. discloses, e.g., clock face representations; however, Applicants respectfully submit that such constitutes neither a description nor a suggestion of at least the above-discussed claimed features as recited, *inter alia*, in Claims 11 and 14.

Applicants further respectfully submit that there has been no showing of any indication of motivation in the cited documents that would lead one having ordinary skill in the art to arrive at such features.

The dependent claims are also submitted to be patentable because they set forth additional aspects of the present invention and are dependent from independent claims discussed above. Therefore, separate and individual consideration of each dependent claim is respectfully requested.

Applicants submit that this application is in condition for allowance, and a Notice of Allowance is respectfully requested.

Applicants' undersigned attorney may be reached in our Washington, D.C. office by telephone at (202) 530-1010. All correspondence should continue to be directed to our address listed below.

Respectfully submitted,

/Daniel S. Glueck/
